

[COMPANY NAME]

[Company description - what the company does, 20 to 30 words maximum, drawn from the deck.]

SECTOR [Sector] | STAGE [Stage] | RAISE [Raise] | VALUATION [Valuation] | GEOGRAPHY [Geography]

CONVICTION

X.X / 10
[BAND]

CORE INVESTMENT BELIEF

[Core investment belief - one sentence: '[Company] has a credible opportunity to [outcome] if it can [critical conditions].' The economic or strategic bet, not the product.] [One clause on what caps the score.]

[Value 1]	[Value 2]	[Value 3]	[Value 4]
[METRIC 1] [S1]	[METRIC 2] [S2]	[METRIC 3] [S3]	[METRIC 4] [S4]

EVIDENCE SUPPORTING THESIS

- [Evidence item 1 - what the deck demonstrates, stated concretely in one sentence] — [Why it matters to the investment case - one clause] ([Evidence type], [strength]) [S1]
- [Evidence item 2 - what the deck demonstrates, stated concretely in one sentence] — [Why it matters to the investment case - one clause] ([Evidence type], [strength]) [S2]
- [Evidence item 3 - what the deck demonstrates, stated concretely in one sentence] — [Why it matters to the investment case - one clause] ([Evidence type], [strength]) [S3]
- [Evidence item 4 - what the deck demonstrates, stated concretely in one sentence] — [Why it matters to the investment case - one clause] ([Evidence type], [strength]) [S4]

WHAT MUST BE TRUE

- [Assumption 1 - a specific, testable condition that must become true] — [What breaks if it is false - one clause] [status] — CRITICAL DEPENDENCY
- [Assumption 2 - a specific, testable condition that must become true] — [What breaks if it is false - one clause] [status]
- [Assumption 3 - a specific, testable condition that must become true] — [What breaks if it is false - one clause] [status]
- [Assumption 4 - a specific, testable condition that must become true] — [What breaks if it is false - one clause] [status]

WEAKEST LINK

[Weakest link - the largest gap between the founder narrative and what the deck demonstrates. State explicitly what has NOT been shown. One to two sentences.]

RISK MAP

RISK	PROB.	IMPACT	EARLY WARNING SIGNAL
[Risk 1 - the concrete failure mechanism, not the risk category]	[Prob.]	[Impact]	[An observable signal that this risk is materialising]
[Risk 2 - the concrete failure mechanism, not the risk category]	[Prob.]	[Impact]	[An observable signal that this risk is materialising]
[Risk 3 - the concrete failure mechanism, not the risk category]	[Prob.]	[Impact]	[An observable signal that this risk is materialising]
[Risk 4 - the concrete failure mechanism, not the risk category]	[Prob.]	[Impact]	[An observable signal that this risk is materialising]

CONVICTION STRENGTHENS IF

- [Observable development 1 that would materially increase conviction]
- [Observable development 2 that would materially increase conviction]
- [Observable development 3 that would materially increase conviction]

CONVICTION WEAKENS IF

- [Observable development 1 that would materially reduce conviction]
- [Observable development 2 that would materially reduce conviction]
- [Observable development 3 that would materially reduce conviction]

BEST OPPOSING VIEW

[Best opposing view - the strongest credible skeptical reading of this opportunity, steel-manned rather than a straw man. One to two sentences.]

THESIS INVALID IF

- [Thesis-breaking condition 1 - stronger than an ordinary risk]
- [Thesis-breaking condition 2 - stronger than an ordinary risk]

NEXT PROOF POINT

[Next proof point - the smallest, highest-information test that would resolve the largest remaining uncertainty. State what to test, what to measure, and which result matters.]

KEY DILIGENCE QUESTIONS

- [Diligence question 1 - targets a specific unresolved evidence gap]
- [Diligence question 2 - targets a specific unresolved evidence gap]
- [Diligence question 3 - targets a specific unresolved evidence gap]
- [Diligence question 4 - targets a specific unresolved evidence gap]
